Could you be our next success story?

West Midlands Portfolio

The GP Service

A platform providing online access to general medical consultations and prescriptions. Funding will enable the business to further develop web functionality, expand its presence among independent pharmacies and create up to 60 new jobs within the region.

IQ Medical

A specialist provider of medical devices and equipment. Funding will be used to fuel the development of new, high-performance products allowing IQ Medical to diversify its NHS Hospitals and Care Home portfolio and strengthen its sales and marketing team.

Automotive Macliver

The designer of the world's only multiple child car seat. Funding will enable the business to invest in its product range and improving efficiencies in its batch manufacturing process. The business will also purchase stock to meet growing sales and create 2 new jobs in the region.

Validair Monitoring Solutions

A technical services and environmental monitoring solutions company. Funding will enable the business to expand its service offering overseas, invest in its product portfolio to meet growing market demand and support the creation of 4 new jobs in the region.

East Midlands Portfolio

£500,000 Leicestershire Growth Stage Manufacturing

Lifeplan Products

One of the UK's leading manufacturers of vitamins, minerals and supplements. Funding will enable the business to implement its growth strategy by improving manufacturing capabilities with the purchase of new equipment, support the creation of 20 jobs and explore other innovative methods to develop a range of new products.

£210,000 Nottingham Early Stage Digital

Renato

Classroom management software and creator of the cloud-based platform; senso.cloud. Funding will be used to support the company's innovative product portfolio and expand its sales and marketing function, creating 11 new jobs. Already installed in more than 1000 schools worldwide, senso.cloud has shown to be a huge disrupter in the education sector.

£250,000 Mansfield Growth Stage Manufacturing

Proskins

Manufacturer of sports and leisurewear. Funding will be used to implement an ambitious marketing strategy to capitalise on the growing global demand for Proskins products and help build the firm's presence in Germany and the US, whilst creating 10 new jobs in North Nottinghamshire.

£350,000 Northamptonshire Growth Stage Telecoms

DTC International

A telecoms lifecycle management company. Funding will enable DTC to develop a state-of-the-art training centre, intended to be a centre of excellence in the industry and part of the company's move to a direct-employment model, enabling the business to train employees to an exceptionally high standard and offer cross-skilled engineers. The deal will also support the creation of 40 new jobs.
