Specialist Business Advisor: **borwell** 

How did this programme help your business?

The programme highlighted a few areas to improve security on PCs. It reminded me to change a number of passwords, that. although secure, had not been changed for a while. On websites to stop opening a https: site with just http:. Overall a number of small but effective change to make Ocius less vulnerable to hackers/cyber attacks etc.

What would you advise other Worcestershire businesses about the programme?

Whether you think you have done everything to ensure you are protected. Get a health check from the specialists. They will cover all aspects of technology.
