

Specialist Business Advisors Case Study

“ Thank you to Worcestershire Business Central for providing the Business Advisors service which I can heartily recommend. I had friendly and invaluable advice from the team at Borwell which was extremely reassuring at such an uncertain time as this. ”

-- Fiona Taylor

The Urban Herbery supplies herb gardens in pots for indoors and outdoors.

Specialist Business Advisor: **borwell** 

How did this programme help your business?

It served to reassure me that as a small business my website, email and also hardware were all secure from cyber attacks/hacking which would be a nightmare for a business like mine with such small margins.

What would you advise other Worcestershire businesses about the programme?

I would advise them that this is a fantastic opportunity to get highly professional advice from an expert company at no cost to your business, but which could save money (and heartache) in the long term.
