

“ From funding grants to practical help and advice - it's  
all there at Worcestershire Growth Hub ”

-- Ian Jarvis

Vertis Accounting Limited is an accountancy firm in Worcester that works with small businesses across the county.

Specialist Business Advisor: **borwell** 

## How did this programme help your business?

We now have the confidence and ability to seek accreditation to the Cyber Essentials quality mark. We are a digital business and whilst we had already adopted many, but not all, of the good practice requirement for Cyber Essentials there is no substitute for the expert guidance of specialists like Borwell in improving how we do things at the same time as navigating the accreditation requirements

## What would you advise other Worcestershire businesses about the programme?

here is a tremendous amount of expertise available through this program and it can make a huge difference to small businesses in Worcestershire. I would advise any business owner to make contact with the Worcestershire Business Central team and ask for help. What's the worst that they can say?
